EXPERIENCE

Self-Employed   Feb 2023 – Ongoing
FULL STACK DEVELOPER

- Worked remotely and helped many individuals, and small and intermediate companies in bringing their ideas to life.
- Implemented an automated testing system for an e-commerce website using the latest tech trends.
- Constantly seeking new challenges and opportunities to learn and grow as a developer.

Web Developer   jan 2022 – Dec 2022
Dads Agree   *Michigan, US*

- Achieved a 20 reduction in average content deployment time through an overhaul of XML web form processes.
- Engineered JavaScript functionality to process entered user information on front-end to back-end financial acquisition services.
- Designed and Developed Front-end custom themes for E-commerce sites utilizing HTML, CSS, and JavaScript.

Writer-Editor-Manager   March 2021 – Nov 2021
Simply Best Of   *Michigan, US*

- Increased 25 percent of the site's revenue by nominating well-researched, compelling, and trendy keywords using Ahrefs and Surfer.
- Productively managed a team of 7 writers to deliver consistent, accurate, and engaging content.
- Improved site ranking for a lot of disintegrating content from 13th to 1st page.

PROJECTS

iOS Side-Loading Automation   *Python, Automation*   Source Code

- The Alt Server Automation script is designed to provide automated notifications via email when your Alt Server and PC are turned on. This script is a helpful tool to keep you informed and ensure that your Alt Server and PC are running smoothly

Sync Terminal App   *Python, Spotify And YouTube APIs*   Source Code

- For music nerds like me, I absolutely love the cross-platform connectivity of Spotify, but, to be honest, the YouTube Music algorithm is better. With this script, you can have the best of both worlds. It syncs your new music discoveries on both platforms.
- Utilized APIs for accurate playlist retrieval and conflict resolution.

Discord Bot   *JavaScript, Discord API*   Source Code

- Developed a custom Discord bot for interactive prompts and media responses to a paid mid-journey Discord server and give back responses.
- Leveraged the Discord API for a user-friendly experience.
